PROJECTS

Socialize <https://boiling-caverns-77911.herokuapp.com/> | <https://github.com/Dominick-Simone/Socialize>

- This is a social media app that was built as my final project in my coding bootcamp. It allows users to create posts, like other users posts, follow other users to see their posts in your homepage feed, and see other users profiles.
- Solo Project.
- Built with React.js, Node.js, Express.js, GraphQL, MySQL, Sequelize

NFL Bets https://github.com/Dominick-Simone/NFL_Bets | <https://vast-eyrie-51403.herokuapp.com/>

- NFL Betting website that allows users to create an account, login, and place bets on whether a team will win or lose a game in the schedule.
- I did the initial backend setup, as well as fetching data from apis to give the front end team access to what they needed.
- Built with Node.js, Express.js, MySQL, Sequelize
